

# Levelized Billing

Levelized Billing makes your electric bill predictable. With Levelized Billing, your monthly budget amount is a rolling average of your electric usage from the most recent 12 months.

Levelized Billing uses a rolling average, therefore, your budget bill amount will change slightly every month. One of the advantages of Levelized Billing is the elimination of large fluctuations in your monthly bill.

Another advantage of Levelized Billing is that the only time you have to reconcile your account is if you move to a new location or if you no longer want to participate in the Levelized Billing program.

*As Simple as 1-2-3*

manage your
